

## COSBY'S ENLISTED FOR PLAYGROUNDS

Association Unable to Take Advantage of His Tentative Offer.

## IS WITHOUT FUNDS TO CARRY ON WORK

Sixty-one Hundred Dollars Needed to Enable "Vacation Schools" to Be Opened.

Col. Spencer S. Cosby, superintendent of public buildings and grounds, has tentatively assured those who are struggling to provide funds for the playgrounds movement in the Capital, that if sufficient funds are raised for the purpose he will take into consideration the opening of a number of the smaller parks as little girls' playgrounds.

The fact that Col. Cosby has thus indicated his sympathy, and that of the Administration, with the movement, and that his offer may prove without value because the playgrounds Association is without the funds to take advantage of it, is its own commentary upon the present unfortunate state of affairs here in so far as "vacation schools" for the little folk of Washington are concerned.

Public Not Aroused. According to Vice President Arthur C. Moses, of the Washington Playgrounds Association, the public has but little awakened to the necessity for immediate aid if the playgrounds of the city are to be opened during the long summer months. The association hopes to open and equip sixteen playgrounds. Present indications are that it will be fortunate if able to operate half the number. Sixty-one hundred dollars are still required. Congress failed to appropriate a cent for the vacation pleasures and the physical improvement of the children of Washington, and the association is upon its own resources.

"I regret to say," said Mr. Moses this morning, "that despite the fact that President Taft has said, 'I am for playgrounds,' and Speaker Cannon in a recent address made the same statement, and that the Postmaster General is president of our association, that showing the Administration's attitude, Congress failed to act, and now the public does not seem to realize the necessity confronting us."

## Vacation Schools.

"Playgrounds are in reality but 'vacation schools,' making for the health and bodily perfection of little folks who otherwise would grow up undeveloped. Give us playgrounds, and the best ally of tuberculosis is beaten at the outset. We had hoped to open a number of grounds, in charge of competent teachers, in those sections of the city inhabited by the poorer classes—sections where the mothers and fathers are at work all day and the children are turned loose without a place to play. "Unless subscriptions come in more rapidly, however, our chances for opening new grounds during vacation months are exceedingly gloomy."

Recent Contributors. The association appreciates both large and small subscriptions, which should be sent to John B. Sleman, treasurer, Bond building. Among recent contributors to childhood welfare in the Capital are:

John H. Moore, \$5; Dr. E. M. Gallaudet, \$10; A. M. Lotirop, \$25; Miss Mabel T. Boardman, \$5; Miss Georgia Robertson, \$5; Mrs. Edwin Franklin Townsend, \$5; F. A. Wood, \$2; Mrs. W. E. John M. Dickinson, Secretary of War, has accepted the invitation of the joint committee of the Board of Trade and Chamber of Commerce to read the Declaration of Independence at the citizens' celebration of the Fourth of July.

In a letter to the committee, Secretary Dickinson said that notwithstanding the many demands on his time, he accepted the invitation, as he desired to show his hearty interest in the proposed improvement of the celebration of Independence Day.

He added that he appreciated the efforts to stop the loss of life and property caused by the indiscriminate use of fireworks, and believed that the success of the celebration here would greatly aid the movement all over the country.

## SCHOOL CHILDREN SAVED FROM FIRE

Orderly Drill Proves the Salvation of Nine Hundred in Detroit.

DETROIT, Mich., June 1.—Nine hundred children walked down the stairs and fire-escapes of St. Casimir's Parochial School here today in response to the gong for a fire drill, just in time to see the fire that had been discovered a few minutes before, burst into a roaring mass of flames on the second floor.

One child was hurt in the hasty fire drill and several had narrow escapes from the fire engines as they dashed up to the school. The fire burned fiercely, and the indications are that the building will be a total loss.

## WISHES FOR AUTO VERY FIRST THING

KITTANNING, Pa., June 1.—Mrs. Laura Engel, who lives on the outskirts of this city, and who has for many years supported herself by dressmaking, has received word from attorneys in Cincinnati that F. L. Engel, an uncle, has died there, and that her share of his estate will be about \$175,000.

Mrs. Engel has instructed friends to get best prices on automobiles, as she once decided that if she ever became rich she would have as good an auto as anyone who rode past her home as she toiled as a poor working woman.

## HARRIMAN, GENIAL, STARTS FOR EUROPE

Railroad Magnate Poses for Newspaper Photographer on Dock.

NEW YORK, June 1.—After having told the country how to get along while he is away, Edward H. Harriman, the retired wizard, sailed for Europe today on the Kaiser Wilhelm II in search of better health.

Harriman was the last man to board the steamer. He and his wife consented to pose for the newspaper photographers as they walked up the gangplank. Harriman said that he had nothing to say in addition to what he said yesterday.

He leaned over the rail of the steamer after the gangplank was pulled off, and laughed at the reporters who had come to see him off. "You can't get at me now," he said.

One of the photographers asked the railroad king to lean over the rail for a picture, and he retorted: "You'll have to speak German to me now—I'm on a German ship."

But he posed for the picture and for several more, and waved his hand to the newspaper men until the vessel had cleared her berth.

## TOURS WORLD AFOOT, AUSTRIAN IS IN CITY

Joe Miculic Must Travel 8,000 Miles to Complete Trip.

Apparently as fresh after a seventeen-thousand-mile journey as though he had just come from a stroll in the park, Joe Miculic, of Croatia, Austria, who is walking around the world on a bet, called at the District Building today to obtain the seal of the District to his papers.

The Austrian appears undismayed at the prospect of the additional eight thousand miles which he must cover by February 5, 1911, in order to win his wager.

While waiting to interview Dr. William Tindall, secretary to the Commissioners, Miculic received some valuable advice on walking from Waldo Hibbs, secretary to Commissioner Macfarland, who is himself a championship long distance walker, having covered the distance between Washington and Falls Church in seven hours sixteen minutes and one and four-fifths seconds.

## IMPROVES SYSTEM.

MADRID, June 1.—The bill providing for the reorganization of the Spanish postal service has been adopted by the chamber of deputies. This reorganization involves an expenditure of \$2,000,000, which will be devoted to improving the postal, telegraph, cable, and long distance telephone services.

## STRIKERS THREATEN A TIE-UP IN SHOPS

Visitors Declare They Were Roughly Handled by Company's Officers.

BALTIMORE, June 1.—Fifty strike breakers employed at the Locust Point Car Shop, of the Baltimore and Ohio railroad, quit this morning, and refused to return to the shops.

Several persons are reported to have been roughly handled by the Baltimore and Ohio special officers. A reporter for an afternoon newspaper declares he was roughly handled and then arrested by a Baltimore and Ohio special officer charged with disorderly conduct, although he protested he was in the vicinity from peaceful motives. A reporter for another afternoon paper was roughly handled, but not arrested.

It looks now as if a general strike, embracing the mechanical branches of the railroad will be in force before midnight.

## FAINTS; ASPHYXIATED.

CHESTER, Pa., June 1.—As she turned the jet to light the gas, Mrs. Lavinia Phillips, of W. S. Seventh street, was seized with a fainting spell, and dropping helpless to the floor, was asphyxiated.

## ANARCHISTS OPPOSE EVERY GOVERNMENT

Reds, in Convention at Leipzig, Want "Earthly Paradise" Without Any Ruler.

LEIPZIG, June 1.—An earthly Paradise, without monarchs, presidents, governments, armies, navies, or police, is demanded in a resolution unanimously adopted by the conference of anarchists, which closed its sessions here today. There were fifty delegates.

They resolved that the abolition of all forms of government is a condition precedent to earthly happiness.
